Dear Sir

I am a published author and academic with over 20 published books and papers, extensive contributions at conferences and symposiums and a track record of achievement in research particularly in the area OF intelligent machine design AND Fuzzy logics applications in Mechanical engineering. I was Associate Professor in St. Petersburg State University of Communication / Russia and Al-Mustafa University College / Iraq. I am disciplined, motivated and reliable with high level communication and interpersonal skills including fluency in Arabic, Russian and English, able to effectively engage students in learning activities, seeking a teaching and research opportunity with a leading Australian university.

I was awarded a PhD and Master of Science (M.Sc) in Mechanical Engineering (Intelligent Machine Design) from the St. Petersburg State University of Communication. For the last eight years as Deputy Dean, Head of the Department, Associate Professor and Lecture, in several universities, I have taught Intelligent Machine Design, Programming, CAM, Mathematics 1 & 2, Robotics, Strength of Materials, Automation, Fluid Mechanics, Thermodynamics and Project Management to classes of up to 100 students (undergraduate and postgraduate).

I eligible to work in Australia full time with ability to extend my contract with the university.

I look forward to the opportunity to demonstrate my suitability for this role and I'm happy to answer any questions you might have.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Waelwe'.
