

AL

# ABDERRAZAK LOULIZI, PMP

## Professional Summary

With over 20 years of experience in information technology, I am a skilled and versatile project manager who can deliver complex IT infrastructure projects with quality, efficiency, and customer satisfaction. As a project manager at Bani Amr Group, I led and coordinated multiple IT projects across different countries and regions, involving virtual collaboration, risk management, and stakeholder engagement. I also have a strong background in IT business analysis, process improvement, and electronic publishing, having worked as a director of IT, a business process manager, and a database developer for various organizations. I am currently pursuing a PhD in business and management with a focus on project management, and I hold an MBA in information technology and a M.Tech in electrical and electronics engineering. I am passionate about learning new technologies, enhancing my project management skills, and contributing to the success and growth of the IT industry. I am fluent in Arabic, English, and French, and I can bring diverse perspectives and experiences to any team or organization.
