International Oracle
Users Group Community

Join a user group TODAY!
And connect with thousands of others who turn Oracle technology into productive solutions.

Oracle User Group Members Get the Most Out of Their Training and Technology

Congratulations on earning your Oracle Certification credential. We now invite you to join an Oracle User Group today and put your Oracle University training and expertise to work— for yourself, your company, and the greater community of Oracle technologists.

Network and share product knowledge, best practices, tips, and advice for getting better results. Connect with technology and industry special interest groups and local Oracle Certified professionals like you. Several user groups offer special discounts to individuals who earn an Oracle Certification. To find out more and see all of the benefits that Oracle user groups provide, visit: iouc.org/ou

We know user group members are more satisfied than nonmembers with their Oracle solutions.*

Get instant access to:

- Online resources with case studies, best practices, and technical journals
- Local contacts, support groups, and meetings
- User-driven conferences around the world
- User group activities and events at Oracle OpenWorld, JavaOne, and Oracle Develop
- Access to knowledgeable Oracle Partners
- Oracle local and regional contacts
- Career contacts and opportunities

Abdalrazak Rahem

Nandkumar Autade S.No 33/13/4
Dattanagar Ambegaon Katraj

Pune, Maharashtra 411046
India

Dear Abdalrazak Rahem:

Congratulations on becoming an Oracle Database 11g Administrator Certified Associate ! By successfully meeting all requirements in this accreditation track, you have joined an elite group of Oracle Certified Associates who have demonstrated a commitment to excellence using Oracle's leading technologies. Included in this Success Kit is your Oracle Certified Associate Certificate.

In order to receive your certification logo and ensure that you continue to receive important communications about the Oracle Certification Program as well as any information that may affect your certification, there are a few more steps you need to take:

- **Create an Oracle Single Sign-On (SSO) account (if you don't yet have one):**
    - Go to oracle.com/admin/account and click "Create your Oracle account now."
- **Confirm the correct email address in your Oracle profile:**
    - Go to oracle.com/admin/account and log in with your SSO credentials.
    - Update your profile information including email address.
- **Subscribe to the monthly Oracle Certification E-Magazine:**
    - Go to oracle.com/admin/account and log in with your SSO credentials.
    - Scroll down to "Opt-in to Oracle Communications" and select "Oracle Certification Program."
- **Download your logo from CertView - Oracle's certification candidate interface:**
    - Go to certview.oracle.com and log in with your SSO credentials.
    - Click on Certification Status > Certification History.
    - View the Logo Usage Guidelines on this page.
   - View and download any Oracle Certification logos available to you.

As an Oracle Certified Associate, you are now halfway to your Oracle Certified Professional credential, so keep up the good work! OCPs are in high demand, so achieving your OCP will bring you not only great benefits from Oracle but also increased job opportunities and higher pay.

Keep in mind that if you are pursuing your DBA OCP credential, you must also complete at least one Oracle University hands-on course. You may view the courses that meet the hands-on requirement by visiting the DBA track online (oracle.com/education/certification/certpaths.html) and selecting the link for the DBA path you are pursuing. (This requirement is waived for OA and WDP students.)

We hope you enjoy the rewards of certification. We encourage you to stay current with the latest and future technologies, so please don't hesitate to contact your local Oracle University representative for current and new training opportunities. When the time comes to upgrade your skills with new Oracle technologies, be sure to take advantage of our one-step migration exams that allow you to upgrade your certification quickly. For the latest information on Oracle University learning offerings and certification tracks, please visit oracle.com/education/certification.

Congratulations on your achievement and best wishes for your continued success!

Sincerely,

John L. Hall, Senior Vice President
Oracle Corporation
