

# Curriculum Vitae

mobile :00962772252971

## Summary :

I'm a Master Engineer with more than 20 years of experience . My experience is in Engineering Radio-technical Systems and Radars ( Anti Aircraft Systems Expert) ,maintenance Engineering and heavy equipment , Hydraulic and mechanical systems water and sewage treatment, low current and hybrid systems (Electro-mechanical ) plus translation. I worked as a Training Engineer, Maintenance Engineer, Production Engineer, Electric Branch Manager and Vocational Training Division Manager. These vast fields of engineering disciplines forged me as an attentive to the details and wide visionary manager .

As an officer I have been trained to take actions, I learned to work under pressure and in most critical conditions, to be able to take right decisions in the right time .

I know four languages (Arabic, English, Russian, French)

## Experience

**Chief of Vocational Training Division at Prince Hussain College / Balqa Applied University**

Jan. 2013 - Nov. 2015

Responsible for the vocational training of all kind of technical professions including electricians mechanics welders technical writers electronics etc. within prince Hussein bin Abdullah the second technical college under Balqa applied sciences university . For this period I managed to return the agility and bring up the downed moral of the division's staff by utilizing the management by example and the management by love which is a new current in the management science that value human relations in managing people . The division concluded four branches ,the most vital of them was the military sciences where we held courses of engineering and logistics for officers of different Arab nationalities .

### **Engineering Manager at King Hussein Industrial Park (program Manager )**

January 2008 - 2013 (22 years 10 months)

Facilities Management, Water Treatment plants, Sewage and Waste treatment Systems  
Electric Systems ,Electronics, Low Current ,microwave, control, plc ,utilities ,vehicles maintenance, power systems, solar panels, Standby Generators, HVAC , Machinery ,overhead cranes up to 60 tones .Management and quality control

### **Production Manager at Workshops**

Jan 2000 - Sept. 2006 (6 years)

Plan, schedule, design maintenance processes and supervise the job. Coordinate with clients and End users about the maintenance and repair of a wide variety of systems including radars , control systems , mechanical systems like military trucks and personal carriers

August 1993 - April 2000 (3 years 9 months)

I worked in a wide variety of positions as Translator and a quality control Engineer, Maintenance Engineer of Radars and radio-technical systems of Russian origins like Oca-AKA , Shilka , P-18 , and 19 Radars , Command Centers and automatic fire control , Maintenance Division Manager, Training Engineer for 3 years.

## **Organizations**

### **Jordanian Engineers association**

Member

June 1993 to Present

## Courses

1. Junior engineers ( Jordan Armed Forces)
2. command center (Jordan Armed Forces )
3. Oracle data base ( Information Technology institute)
4. English language ( Languages Institute )
5. French language ( languages Institute) 2
6. corrosion prevention Course
7. FMTV (special purpose vehicles)
8. Steam systems
9. MRAP (Armored vehicles) ( American Army)
10. American Jordanian maintenance engagement ( American Army)
11. Russian language military translation ( Soviet Army school)
12. Training of Trainers ( Harvard Business Solutions)
13. Project Management.
14. Problem solving course
15. Target identification and self Management
16. Innovation in government Sector

## *Languages*

**Russian**

(Full professional proficiency)

**English**

(Full professional proficiency)

**Arabic**

(Native or bilingual proficiency)

**French**

(Limited working proficiency)

## Skills & Expertise

**Engineering**

**Project Planning**

**PLC**

**Project Management**  
**Electronics**  
**Manufacturing**  
**Program Management**  
**Integration**  
**Security**  
**HVAC**  
**Management**  
**Aerospace**  
**Analysis**  
**Team Leadership**  
**Product Development**  
**Embedded Systems**  
**Water**  
**Project Engineering**  
**English**  
**Power Systems**  
**Team Building**  
**Strategic Planning**  
**Microsoft Office**  
**Training**  
**Logistics**  
**Project Coordination**  
**Contract Negotiation**  
**Government**  
**Proposal Writing**  
**International Relations**  
**Inspection**  
**Telecommunications**  
**Windows**  
**Leadership**

## **Education :**

### **Yarmouk University**

Master's degree, Embedded systems, 2006 -

**2007 kiev high college of antiaircraft systems**

Master's degree, Radio technical Systems, 1988 - 1993

### **Kiev High Military College of Anti Aircraft System Engineering**

Master' In Engineering 1988 -1993
