## EDUCATION

**Cairo/Egypt**  
2019

### **Master of Political Science**

Faculty of Economics and political Science/ Cairo University

Research thesis on "the Egyptian revolution and foreign policy: a study in international political economy" examined the international political economy of the Egyptian revolution foreign policy through the three regimes that was on power in the period of study. Using the indicators of regional and international economic restrictions on the revolution and then the Egyptian foreign policy and the opportunities available to these regimes to mobilize regional and international resources to reorient Egyptian foreign policy. The study reviewing the concept of revolution from its various dimensions, its relation to the economic dimensions of the concept of foreign policy and the significance of conditionality in the foreign policy of the post-revolutionary countries. This review in an attempt to build a theoretical framework guided by the approach of the International political economy linked to the revolution or to foreign policy in its aftermath.
