Education and Qualifications

June 2000 *Ejnaden Primary School.*

June 2006 *Al-mutamayzen intermediate& high school (for boys).*

Sep 2012 *M.B.Ch.B. (Bachelors degree in medicine & surgery) from College of medicine –University of Al-Mustansiryia-Baghdad/Iraq.*

Medical Experiences

Working as a junior house officer in the medical city complex in Baghdad from December 2012 to December 2013 in the following departments ((internal medicine, general surgery, gynecology and obstetrics, pediatrics)).

All of the above Hospitals are public hospitals in Baghdad and are run by the Iraqi Ministry of Health. In these Hospitals, my duties were mainly in two aspects. First, the emergency room in which I am the first to receive, assess and if applicable treat the patient. Second, the ward calls where I am fully responsible for providing primary continuing care to patients. In addition, I must attend the consultants' tours every morning.

Currently, I work in the ministry of higher education & scientific research/The Iraqi university/Ibn sina medical college.

Clinical Skills

During my work in the Accident and Emergency department, I became familiar with various diagnostic and therapeutic procedures such as naso-gastric tube insertion, urine catheterization, pleural and ascetic fluid aspiration. I have participated in some surgical operations as an assistant, as for simple procedures as appendectomy to more complex emergency laprotomies & trained in reduction of some bone fractures.

Training course

*Advanced Trauma Life Support(ATLS).
Neurological Language Programming(NLP).*

Hobbies

*I like to correspond on the internet with my friends abroad.
I generally like readings.
I like some sports like swimming.*
