📍 kesra, Tunisia

About me

I have obtained the research master's degree in evolutionary ecology, used to collect information, to compare data and analyze research activities, and gifted by problem solving.

SKILLS

- Theoretical knowledge of PCR
- Molecular biological methods
- SPSS/SAS Statistical Tool
- Experience in ArcGIS/Envi, Amadeus, Cobra, Midoco

Languages

Arabic: Mother

Tongue

French: Professional

English: Intermediate

German:

Intermediate

Spanish: Beginner

Center of interest

- Read and write
- Statistics
- Analysing research papers
- Theory and relativity

WORK EXPERIENCE

since sep 2021

worker at Papendick reise buro

accounting calculation, processing and reservation of hotel, vehicle and travel invoices.

Biological Research Intern – Genes Bank of Tunisia

Feb 2018 – Dec 2018

- The taxonomic ambiguity of the oak kermes in Tunisia especially with its tree form (+ 15m) which reminds us of the eastern "caliprinos" pushed us to characterize this species morpho-genetically according to pedo-climatic factors.
- Sampling of the biological and terrigenous fraction in all localities of the species in Tunisia with precise georeferencing (by GIS) (6 governorates).
- Optimization of a DNA extraction protocol and genetic amplification by PCR using depth statistical study: PCA and ACM for non-quantitative traits.

EDUCATION

Faculty of technologie of Sidi thabet- University of manouba

Research Master Degree in bioinformatics/ Omics BioData (M2)

since sep 2021

Basic knowledge of structural bioinformatics, biostatistics, Functional genomics, and Analysis of interaction networks

Faculty of Sciences of Tunisia- University Tunis Elmanar

Bachelor in Science and application; Biology-Geology 2013 - 2016

Basics in biology (botany, physiology, immunology, genetics ...) and the basics of geology (sedimentology, pedology, hydrology, paleontology ...) and some knowledge in mathematics, physics and chemistry...

Baccalaureate of Natural Sciences 2013

RECOMMENDATIONS

- 1 Mr. Abdellah Chalh – Biostatistics professor – abdellah.chalh@fst.utm.tn (+216) 99091721
- 2 Ms. Rhimi Awatef – Researcher in ban of genes in Tunis – rhimiawatef74@gmail.com – (+216) 98914382
- 3 Mr. El Gazzeh Mohamed – Genetic professor (faculty of science of Tunisia) – Mohamed.Elgazzah@fst.rnu.tn

CREATIVE WORKS

Master memory

Philosophical book in Arabic about existism
