PERSONAL

Prof. Nazik is a confident, focused, efficient, creative, open-minded and well experienced Medical Educator with a proven track record in teaching pathology and pathophysiology of diseases for both under and postgraduate medical students. In addition to her qualifications in pathology and medical education and strong teaching skills gained through her 20 years of teaching experience, she can provide high-quality lectures, plan, upgrade, implement and review curricula of both undergraduate and postgraduate medical colleges. Additionally, she is good at proposal writing, fundraising, scientific writing and publication. Together with her research group, she has published more than 35 articles in national and international reputable medical journals and received many research funds. Also, she has managerial experience and a good team player. She also has excellent interpersonal communication skills. She is fluent in spoken and written English and has participated in several international conferences in pathology and medical education. Furthermore, she is a competent consultant pathologist, at the first and largest Oncology Hospital in Sudan. She is eager to apply her professional pathology skills and further expand her knowledge of pathology. By Prof. Ali Abdel Satir.
