Education:

Menoufia University, Egypt.

- Total GPA for the past three years: 4

- Cumulative ranking: 8th.

- GPA: 4 in first, second and third years in the curriculums of (anatomy, physiology, biochemistry, histology, pathology, pharmacy, microbiology and parasitology).

Clinical research experience:

- Jan 2016-present "The risks of nanotechnology on human health: a review", one of the authors, in the stage of writing.
- Dec 2015- Feb 2016 Gouda MA, "Medical Undergraduates' contributions to Publication Output of World's Top Universities in 2013", QJM journal, March 2016.
- Jul 2015-present "The prevalence of satisfaction among medical students", multicentric cross sectional study, one of the authors, stage of pilot study.
- Feb 2015- Apr 2015 "Comparison between medical and nonmedical students regarding depression and anxiety", cross sectional study, stage of statistical analysis, working as data collector.
- Aug 2014 – Sep 2014 "Global surg: determining universal processes related to best outcome in the emergency abdominal surgeries", an international multicentric study, data collector from the emergency department in Banha University Hospital.

Extra-curricular activities and volunteer work:

- Oct 2015-present Student Union of Menoufia University, Social committee member, representing students' opinions and making social occasions for them.
- Sep 2015 Member of MSSA first medical campaign (Menoufia students' scientific association) providing free medication and health education in poor villages.
- Sep 2015-present Member of the charitable pharmacy (non-profit organization), responsible for drug classification according to validity and systematic effect.
- Aug 2015-Mar 2016 Member of the planning and steering committee of "R34: start your research journey" (research course for class 34).
- Apr 2015-present Student Research Program (SRP) scientific committee member, planning research courses for undergraduates and training them.
- Jan 2015-Sep2015 First aid instructor to undergraduate medical students.
- May 2015-Jun 2015 Mendeley instructor, in Mendeley referencing module supervised by SRP.
- Jul 2014-present Team member in Minds club (charitable organization), creative learning group for creating new ways of learning.
- Jul 2014- Oct 2014 Member of Minds club (charitable organization), character transformation

group making regular visits to the orphans and meeting their needs.

Training courses and workshops:

Oct 2015-Nov 2015	Molecular biology course about DNA extraction, polymerase chain reaction (PCR) and agarose gel electrophoresis.
Sep 2015-oct 2015	Clinical investigations and lab animals workshop about spectrophotometry, ELISA, handling laboratory animals
Jul 2015-Sep 2015	Training for the trainers and scientific committee members of SRP including presentation skills and advanced research knowledge.
Sep 2015	Critical appraisal of research papers by Leslie Lehmann MD at Harvard School in 57357 childrens' hospital.
Jan 2015-Mar 2015	Introduction to clinical neurology, the university of San Francisco online course, coursera website.
Jan 2015-Feb 2015	Research basics course (SRP-RBC 2015), organized by SRP about study designs, critical appraisal, statistics, scientific writing, research ethics, searching database and publication cycles.
Aug 2014-Sep2014	Understanding research: an overview for health professionals, online course, by California University about the basics of research.
Aug 2014	Self-marketing course by DAAD German organization by Dr.Heba Salama.

Training and presentation skills:

Nov 2015-Mar2016	Trainer of research basics in R34 program for undergraduate students.
Dec 2015	Critical appraisal of research papers lecturer in Menoufia University, faculty of medicine.
Dec 2015	lecturer about interview skills.
Oct 2015	Presenter in Student Research Unit(SRU) third anniversary event.
Aug 2015-Oct 2015	First aid trainer.
Apr 2015	Lecturer about the drug therapy of obesity.
Mar 2015	Protocol poster presentation as the graduation project of research basics course (RBC 2015).

Conferences and forums:

Sep 2015	Meet with senior colleagues conference to know about traveling abroad studying medicine and research.
Sep 2015	The annual conference about experimental research, stem cells and breast cancer at the national Centre of Experimental Research (NCER).
Sep 2015	Diabetes, gut and liver annual conference by Dr. AbdElkalek Hamed.
Aug 2015	The 6 th Arab diabetes forum to explore the risk factors of diabetes and its hazards among Arab countries.
Jan 2015	post-graduation opportunities conference to explore about USMLE, PLAP, and Hamad medical collaboration.

Project leadership:

Mar 2016	Cochlear implant surgical indications as academic research activity.
Nov 2015	Domestic violence research activity as a part of forensic medicine curriculum.
Feb 2015	Drug therapy of obesity research activity curricular pharmacology.
Feb 2015	Ebola virus prevalence in Africa curricular research activity.
Jan 2015	Baermann's technique in the differentiation between different helminths, curricular research activity.
